John Naef, an expert tinner from Poplar Bluff, has located in Ironton establishing a shop in the old Mayes livery barn. Mr. Naef has done considerable work in the valley the past few years as an employee of the Morrison Company at Poplar Bluff and his work has always proven satisfactory. Now is your chance to have that work done that you have been waiting for so long.

Sheridan L. Powers, Superintendent for the Moss Tie Company in this county, returned from Big Brushy Tuesday where he had been with a crew of men driving ties down that stream. He brought down 25,000 and stacked them on Middle Fork, near Black. Mr. Powers has, on the company's different yards, more than 150,000 which will be taken down Black River to Clearwater some time this spring.—Centerville Outlook.

The REGISTER this week prints the announcement of Marcus D. Yount as a candidate for the Democratic nomination for County Clerk. There isn't a finer boy in the county than Marcus Yount and the people with whom he has spent all the days of his life all testify to his worth as a man and citizen. Should Mr. Yount be nominated and elected this most important office will be in competent hands and the people's interests at all times safely guarded. He respectfully solicits consideration of his claims.

The electric light people have proposed a new light contract to the city. The new plan proposes 34 street lights, to burn all night and cost \$105 a month. At present we have 24 lights that cost \$72 a month. A special election will be held soon to give the people an opportunity to vote on the

proposition. As we have heretofore stated we see absolutely no use in passing an ordinance or making a contract. The Public Service Commission, at its own sweet will, will set it aside whenever it sees fit to do so.

The contest for the Hope Chest is now open. Every girl, old or young, married or single, is eligible. For every bottle of Foster's extract sold seven votes will be given. These extracts have been used by the ladies of the valley for the past year and the same orders have been repeated time and again which is the "proof of the pudding." The extracts may be obtained at Fletcher & Barger's garage and any girl has the privilege of selling these extracts and obtaining votes for herself. The girl with the most friends will get the Hope Chest.

E. G. Eastman Wednesday of last week sold the bakery building and fixtures to S. E. Whitmore and H. L. Collins of Sabula—son-in-law and son of O. L. Collins of Sabula. The new owners took possession at once and are now conducting the business. We wish them well. Mr. Eastman has no plans for the future other than to take a rest in the new home he recently purchased on north Shepherd street and where he is now domiciled. In the years Mr. Eastman has been in the business here it is generally understood that he has prospered.

Easter Sunday comes a little late this year, falling on April 16. Only three times in the next ten years will it come any later than that. It is also interesting to note that only twice in the next ten years will it come in March. Easter Sunday is the first Sunday after the first full moon on or after March 21st. If such full moon chances to fall on Sunday then Easter Sunday is the following Sunday. Last year Easter came on the last Sunday in March and on that day it elected and froze and the entire fruit crop, which had such bright prospects, was completely destroyed. It is to be hoped that history will not repeat itself this year.

After the trial of the Barton murder case and the disposition of a few minor matters circuit court last Friday adjourned until the following Monday. The time of the court Monday was occupied in trying the case of D. Michalon, the Greek at Hogan, charged with stealing and selling a mule belonging to A. L. Schwab of Ironton. The case was given to the jury about 4:30 o'clock in the afternoon. The jury was discharged Tuesday morning having failed to agree on a verdict. It is thought the court will make final adjournment today (Wednesday) many of the cases on the docket having been continued until the next term.

Greenville news in last week's Piedmont Journal-Banner: "Many Greenville people were badly disappointed last Sunday when they were prevented from attending the fiftieth anniversary wedding celebration of Hon. John H. Raney and wife at Patterson. Owing to the bad condition of the road from the Black bridge it was next to impossible for the celebrators from here to attend, which was very much regretted. But we wish to add here that although we were not permitted to attend our hearts and minds were there and we wish to extend congratulations to Mr. and Mrs. Raney on their acquisition of their fiftieth anniversary and we wish them many more happy wedded days and an abundance of health."

The grand jury adjourned Friday morning. In all six indictments were returned. One for driving an automobile without license, one for driving without chauffeur's license, one for violation of the game law, one for adultery, one for carnal knowledge, and one for bootlegging. An awful attempt was made to lessen the "white mule" that has been so much in evidence for several weeks past but the effort was not a howling success. He seems to have kicked up his heels and hid away. The grand jury is a thing that belongs to the past. There is little or no use for it at this day and time. Some fifty witnesses were examined by the grand jury and the cost of the session to the county is probably in excess of \$300. Is it worth the money?

Sheriff Marshall departed last week for Onondaga county, New York, to take in custody Melton E. Santhuff, who is wanted in this county on the charge of cashing a worthless check on the Bank of Annapolis last June. The check was for \$120 and was drawn on the Farmers Bank of Ellington and signed by Santhuff. When it was presented to the bank at Ellington payment was refused because of no funds, Santhuff never having had an account there. Immediately after cashing the check Santhuff left the country but was recently located in New York where he was serving a sentence for vagrancy. His term there expired Monday and Sheriff Marshall is expected here with his prisoner today or tomorrow. Santhuff is about twenty-two years of age and his home is in Reynolds county.

The jury in the case of State vs. Milton and Wilbur Barton, charged with the murder of Mrs. Mary Ann Osburn at her home at Doyle in the west end of the county in December last, Thursday morning of last week brought in a verdict of guilty of murder in the first degree and fixed the punishment of both defendants at life imprisonment in the penitentiary. The case was given to the jury Wednesday evening and a verdict was reached about ten o'clock Thursday morning. The facts adduced at the trial were in accord with the statement printed in this paper at the time of the commission of the crime. The defendants signified that they would accept the finding of the jury and not prosecute an appeal. On this understanding Prosecuting Attorney Keilh dismissed the other case against the Bartons for the murder of the husband of Mrs. Osburn.
